

# 2010 **ASHRAE/ASPE** **Product Show**

**Central Florida Fairgrounds---May 11<sup>th</sup>, 2010**

The Central Florida Chapters of ASPE and ASHRAE have once again partnered to put on a combined product show for the engineering community. This event has previously been well received and attracts engineers/designers/contractors/owners from all over Central Florida. By purchasing a booth at this show, member sales reps, vendors, manufacturers, etc. can display new products and distribute literature to the people who need it most.

Who benefits from a show like this? EVERYONE!

A variety of vendors set up displays under one roof making it easy to come and get the information you need. You can experience products first hand and have questions answered from the people who are in the know. Sales representatives can meet with the engineers who are specifying equipment and meet them one on one eliminating the hassles of driving around trying to set up appointments.

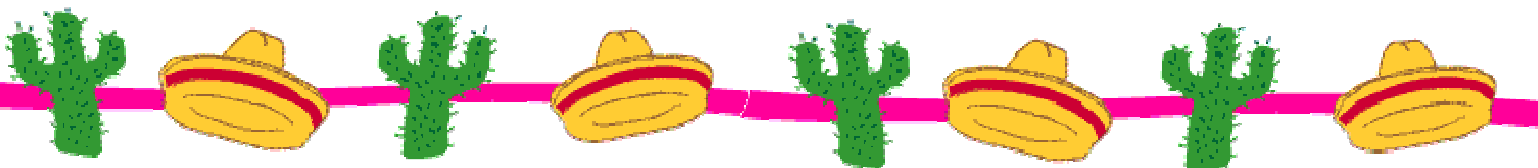

The deadline is drawing near and we ask all of our membership to participate. Early registration is until March 10. ASPE and ASHRAE members have always looked forward to this event in previous years and attendance is always high.

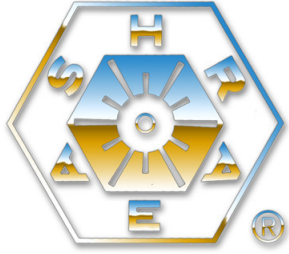

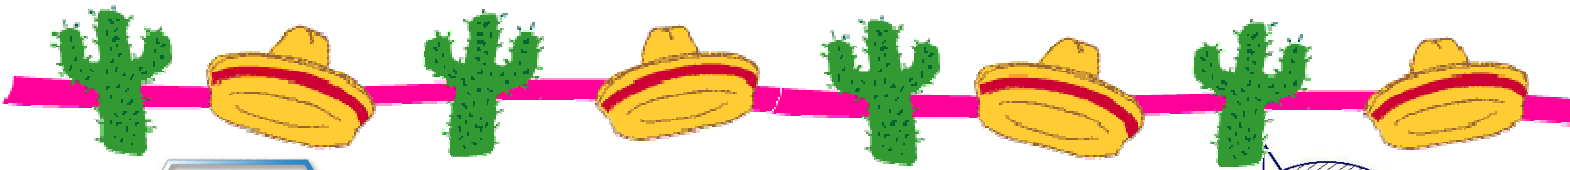

Please, fill out your registration form and get your space reserved. We are hoping once again for a sold out show and we can't do it without the support of the reps and vendors and the support of the members participating.

It's a winning situation for all involved. *Attached are forms for registration, building layout, and information about the theme of the show.* Keep in mind that when you fill out the registration form, your first or even second choice of booth may have been sold, especially the longer you wait to register. We look forward to seeing everyone participate in another outstanding ASHRAE/ASPE Product Show!

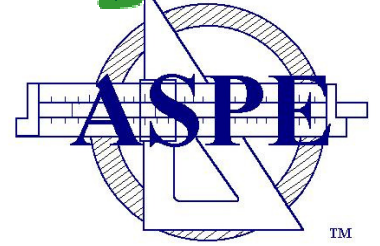

Thank You for your support,

**American Society of Plumbing Engineers  
Central Florida Chapter**

# 2010 **ASHRAE/ASPE** **Product Show**

**Central Florida Fairgrounds---May 11<sup>th</sup>, 2010**

## **Theme Information**

The Product Show has been a long standing tradition between the ASPE and ASHRAE Central Florida chapters. This year, in order to make the show even better by drawing out more attendees, and to make the product show that much more memorable, there will be a theme for the show. Vendors, reps, manufacturers, etc. are encouraged to decorate their booth in conjunction with the theme.

This year's theme is '*Mexican Fiesta.*'

# FIESTA

To decorate your booth, be creative and there is only one rule. Your decorations must remain within the 10'x10' area of your booth. Of course if you have multiple booths next to one another, your decorations are encouraged to occupy your entire area.

Each booth will be judged by about four anonymous engineers looking for creativity, originality, and overall appearance with the theme in mind.

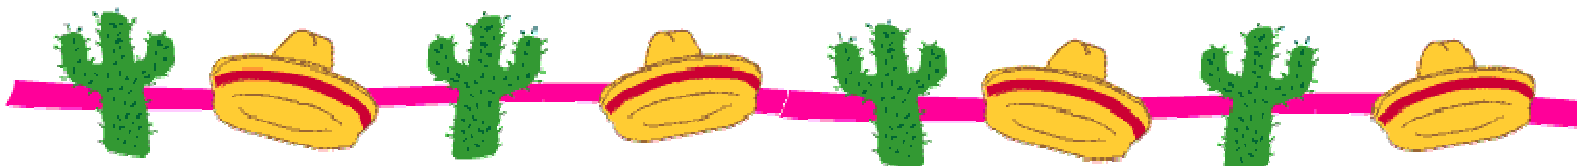

Why should you decorate your booth? Simple. Decorating will pay off. Not only will the decorating of your booth get you more people to stop by, but there is also some financial incentive to do so. The prizes given away will be as follows:

- 1<sup>st</sup> Place \$375 (which is the cost of your registration)
- 2<sup>nd</sup> Place \$150
- 3<sup>rd</sup> Place \$75

We look forward to seeing every one of you at the Product Show, and maybe even with a sombrero on your head!

Thank You for your support,

**American Society of Plumbing Engineers  
Central Florida Chapter**

# ASPE/ASHRAE 2010 PRODUCT SHOW

This bi-annual gathering of the Central Florida Chapters Products Show will allow the affiliate members to display their products and services to the Designers, Engineers, Contractors, Plan Reviewers, Code Enforcers, Architects and Building Maintenance personnel in our area.

Booths are encouraged to be decorated in conjunction with the theme of the show, 'Mexican Fiesta.' More information on the theme can be found on the following page.

WHERE: CENTRAL FLORIDA FAIR GROUNDS  
Main Exhibition Hall  
4603 West Colonial Drive  
Orlando, Florida
